IMPORTANT NOTICE

WATER CONSERVATION NOTICE for VILLAGE OF SAYWARD

Recent heavy rains in the last 24 hours have resulted in high water flows in Newcastle Creek causing high turbidity.

Consequently, Sayward's Water Treatment Plant is currently offline until the turbidity levels decrease to a level where drinking water production can resume.

While the Water Treatment Plant is offline, we need everyone in Sayward to conserve water by limiting water usage to essentials only (e.g., water to drink).

We expect this situation to be short-term and hope to have the water treatment plant running again within 24-36 hours.

We thank you for your understanding and cooperation.
