

Overall Sign Dimensions: Approx. 12' x 7'

Details

- The sign will be composed of three major components; the main panel, the first tier messaging and the elk graphic.
- The main panel will be constructed of High Density Urethane sign foam (HDU) mounted on a metal support structure.
- The second tier messaging ("Welcome To" and "Nature's Playground") will be incised into the HDU.
- The first tier messaging ("The Sayward Valley") will be separate letters, flush mounted to the panel, likely made from enamel coated aluminum. The lower case letters have a height of approx. 8.5" and thickness of 1"
- The Elk graphic, including the groundscape along the bottom will be constructed of HDU in a layered fashion to provide a sense of depth.
- All elements, except the main messaging, will be finished in premium quality, exterior-grade latex paint.
- Materials and construction have been chosen for durability and ease of maintenance.
- All colours are TBD by customer and approved prior to construction.
